

I would like to welcome all members old and new, along with any guests. In the year 2016/2017 Mogo village business Chamber, along with the support of the Mogo and surroundings businesses and community, successfully achieved many things which are small and go unnoticed, along with some that have allowed Mogo to be recognised as an important part of the Eurobodalla shire. Some of these achievements are,

Creating a map which has been distributed throughout the shire and surrounding shires to promote and increase awareness as to what Mogo has to offer.

We have and continue to, encouraged Businesses to work collaboratively on community projects and events.

We have supported the formation of a an events committee, to which I would like to this opportunity to thank all those involved and for their personal time they have donated.

The chamber executive team has also been instrumental in helping progress the chambers recognition amongst all the well established chambers within our shire and the NSW business chamber, to whom I would also like to thank for their efforts and time.

The chamber has also been able to get some improvement for the infrastructure within Mogo which includes, signage, access to the Charles st carpark, the consideration and input for the Mogo Development Control Plan, upgrades to the toilet facility, an advertising campaign for Mogo, and has submitted many letters for the open space strategy, including a small playground for the community and the main shopping area.

Currently we are meeting with the entire shires chambers to form a stronger voice supporting each chamber alike to gain a stronger voice with local government and our council, this amalgamation strategy has been very successful in get some of the shires issues noticed and addressed.

As a newly formed chamber with the highest percentage of members per businesses. We will continue to grow and be a strong voice for all of the businesses in Mogo and its surrounding area whether they are members or not.

We see the key to improving Mogo is by building on the strengths Mogo has created in the past. This can achieved by uniting all businesses with the community and having a common goal.

I would like to thank all the members, and businesses that have helped achieved all to date and welcome any new members to participate in with these goals for the future. Also I would like to thank ESC for there support and guidance for the past 12 months,

Thankyou
Richard Adams – President
